

# James Spence

Fox Point, WI | C: (262) 327-1979 | [Jamesaspence20@gmail.com](mailto:Jamesaspence20@gmail.com)

## Profile

Extremely motivated and versatile web and mobile application developer with over two years of professional experience, eager and willing to learn new skills / standards.

## Areas of Expertise

- Front-end development with HTML, CSS, and JS
- Back-end development with Node, PHP, MySQL, and Python
- Mobile Android / iOS development
- Libraries / frameworks such as Express, Laravel, React, and Vue
- Version Control / Agile Development
- Test-driven development with unit testing

## Experience

Senior Back End Developer, **Ice Frog Technologies LLC**

February 2015 - June 2016

- Web harvesting in Python and Node
- Full web applications, including sites and APIs, built in Node, PHP, MySQL, HTML, CSS, and Javascript
- Usage of popular web frameworks such as Express and Laravel
- Unified systems written in several languages into a single application, such as integrating Node and PHP into a single application
- Test-driven development using PHPUnit and Mockery
- Direct mentoring and training of junior developers

Vice President / Full Stack Developer, **Axolotl Interactive**

Part-Time May 2014 - August 2014, Full-Time August 2014 - January 2015

- Full web applications built in PHP, MySQL, HTML, CSS, and Javascript
- Mobile applications written in both Android (Java) and iOS (Swift)
- Managed and led 2-5 co-workers in planning and programming applications
- Explored new standards and processes to increase programming productivity
- Used version control software (git) in order to manage developer processes

Full Stack Developer, **Byte Studios**

January 2014 - August 2014

- Developed full web applications in PHP, MySQL, HTML, CSS, and Javascript
- Maintained and expanded upon a custom in-house content management system (CMS)

Web and Mobile Developer, **Freelancer**

June 2013 - January 2014

- Web applications using PHP, MySQL, HTML, CSS, and Javascript
- Mobile applications written in Android (Java)
